FALL SEMESTER 2021

- PhD Seminars on *Citizenship and Integration of Migrants* (October 2021)

Alessandro Bufalini, Tuscia University

- PhD Seminars on *Labour Market and Welfare Systems in Europe for Migrants* (November 2021)

Daniela Comandè, Tuscia University

The Jean Monnet Centre of Excellence on Integration of Migrants in Europe (IntOME) has been established in September 2020 at the Department of Modern Languages and Literatures, History, Philosophy and Law Studies (DISTU) of Tuscia University (Viterbo, Italy). It aims to be an **education and research platform on migration and asylum processes**, with a special focus on integration matters. IntOME promotes excellence in its research and teaching activities, by **connecting networks of academics and high-level experts** with strong competence on immigration, asylum, integration, inclusion and participation studies. The Centre of Excellence is committed to **establish synergies with other Jean Monnet modules and centres** working on issues of common interest (*inter alia*) by inviting their staff members to take part in IntOME activities and actively engaging in other JM projects. Furthermore, the Centre of Excellence is connected to the **Academy of Law and Migration (ADiM)**, created in 2018 as a result of the Project of Excellence (2018-2022) awarded to the DISTU Dept. by the Italian Ministry of Education and Research (MIUR) for the quality of its scientific publications in the public law area. With its 393 members, among Italian and European scholars, and 20 institutional partners, from Europe and North Africa, ADiM is a **consolidated forum supporting IntOME activities**, especially in the search of new avenues of collaboration with academic institutions in Europe and beyond.

TARGET AUDIENCE

IntoME intends to **reach out to a wide and differentiated audience**, including graduate and undergraduate students, PhD candidates and early-stage researchers, public administrators and decision-makers, media and organised civil society.

The main goal is to sensitise the target audience on the importance and challenges of third-country nationals' integration, boasting social cohesion and security for both local communities and the migrant population.

SUMMER TRAINING SCHOOL on "Legal and Political Challenges of Migrants' Integration in Europe" (28 June 2021 - 9 July 2021)

The STS on *Legal and Political Challenges of Migrants' Integration in Europe* will investigate **three key aspects**: *a)* pre-entry and early integration measures and practices, including access to the labour market and basic social services; *b)* mid-term integration strategies, including access to welfare and non-discrimination legislation; and *c)* long-lasting integration measures, including social inclusion strategies and urban/municipal integration.

These dimensions will be explored from a variety of viewpoints, including a **legal, political, social, economic and geographical standing**. To this aim, leading academics, practitioners and experts in the fields of labor law, welfare studies and public policies, geography and territorial processes will be involved.

As the COVID-19 pandemic is ongoing, the STS activities have been scheduled online. Applicants and confirmed participants will be informed of any changes in due time.
