

The [Jean Monnet Centre of Excellence on the Integration of Migrants in Europe \(IntoME\)](#) is a study and research platform for the analysis of migration processes, with a special focus on integration matters. In addition to the scheduled teaching and dissemination activities, the main achievements in the first year of IntoME are listed below:

1. Launch of an annual IntoME Summer Training School, now integrated into the curriculum of the newly-established [Master's degree on Security and Human Rights](#) (European Studies), active from the a.y. 2021-2022 at Tuscia University, entirely taught in English, and focusing on human mobility and integration studies (for further information on the first edition, see below)
2. Launch of a series of annual IntoME Doctoral and Postdoctoral Colloquia, as an opportunity for young researchers to present and discuss with scholars and experts the outcome of their ongoing research projects (for further information on the first edition, see below)
3. Establishment – in cooperation with the Academy of Law and Migration (ADiM) – of an international Young Researchers Laboratory (YRLab), as a spin-off of the series of IntoME Doctoral and Postdoctoral Colloquia, in order to support and expand the reach of this initiative (here the [link to the Lab](#)).
4. Strengthening of scientific cooperation with the Migration Subnetwork of the [Mediterranean Universities Union \(UNIMED\)](#), the [Institut de recherche sur le Maghreb contemporain \(IRMC, Tunisia\)](#) and other African and European academic institutions.

## Recent Activities

### **The first IntoME Doctoral and Postdoctoral Colloquium – International Migration and Labour Market Integration**

The first IntoME Doctoral and Postdoctoral Colloquium on 'International Migration and Labor Market integration' has been an unforgettable edition, for the symbolic value of the place – Lampedusa island – as well as for the quality of the selected papers and the openness of the discussion. This edition has addressed the relationship between migration and the labor market of receiving countries, with a focus on the dynamics of inclusion, exclusion, and integration. The four sessions – coordinated, respectively, by Mario Savino and Mariateresa Veltri – concerned the following aspects: I) Migrant workers' rights in times of pandemics: between agriculture and algorithm; II) Revisiting Traditional understandings: multilingualism and circular migration; III) Labor market and integration: insights from the far East; IV) Fragmented equality and enhanced integration. Several scholars intervened as discussants: Marco Borraccetti (University of Bologna), Alessandro Bufalini (University of Tuscia), William Chiaromonte (University of Florence), Francesco Luigi Gatta (Université Catholique de Louvain), Francesco Moresco (University of Hamburg), Virginia Passalacqua (University of Turin) and Daniela Vitiello (University of Tuscia).

**Scientific Committee:** M. D'Onghia, M. Savino, M. Starita
